ABOUT US

Summit Doors is established in 2012, our company strives to provide the highest quality timber door with a very competitive price. Summit Doors is considerate of the environment sourcing raw materials from sustainable and renewable sources. All the timber used in our doors is currently sourced from Indonesia. Summit Doors products are available from our Melbourne showroom/ warehouse with a wide selection of styles and sizes. We offer delivery service to most metropolitan areas within Australia. For other customised styles and sizes please contact our friendly Sales team at **sales@summitdoors.com. au** for pricing and availability.

OUR MISSION

At Summit Doors, our mission is to attract and retain customers by providing the highest quality engineered solid Timber Doors, at a competitive price with the best customer service.

TYPE OF JOINT

Dowel Joint is used in our door. Dowels are round wooden pins of small diameter used to reinforce a joint. They are dipped in glue and driven at a tight fit holes made for their reception.

Glass

TYPE OF WOOD

The type of wood that we use is Meranti, which is one of the Shorea species. Meranti is classified as a hardwood with light to medium weight-being and heartwood ranging in colour from light pink to light brown. It is a versatile timber, which is widely used for decorative application including; furniture, interior finishing, paneling, moulding, skirting and architrave.
